- C PROGRAMMING (GUVI)
- JAVA DSA(GUVI)

## PROJECTS-

- **SODUKO GAME:** Developed a classic 9x9 Sudoku game that includes puzzle generation, user input validation, and game logic to check for correct solutions. Implemented features such as board display, real-time error detection, and difficulty level settings.
- **EXPENSE TRACKER:** Built a user-friendly expense tracking application that allows users to record, categorize, and monitor their daily expenses. The application provides an overview of spending habits through summaries and reports
- **JOB-INTERNSHIP-FINDER:** Developed a platform to help students and job seekers discover internships and job opportunities based on skills, location, and experience level. The system allows users to search, apply, and manage job listings efficiently
